Preface

The Government of Alberta has asked the Environment Council of Alberta to enquire into the potential for the economic recycling of products presently disposed of as wastes and to consider the potential and comparative economics of the generation of energy from wastes when alternative recycling routes are not feasible. Following the enquiry and its public hearings, the Environment Council will submit a report and recommendations to Cabinet.

As part of its preparation for the hearings, the Environment Council has prepared a series of reports on various aspects of recycling. This bibliography contains a listing of reference materials used in researching and writing those reports. This bibliography is not a complete listing of information sources, but provides a starting point for those interested in learning more about recycling.

USING THIS BIBLIOGRAPHY

This bibliography is divided into three sections: Recycling, Energy-From-Waste, and Solid Waste Management. In each section, the author, title, and publication information are provided for a variety of reference materials. Each citation contains additional information about the reference, including, where appropriate, an indication of the geographic region to which the reference applies. In addition, keywords have been assigned to assist the reader in making full use of the bibliography. Where possible, the library location code and call number have been provided to assist readers in locating the reference material. The following libraries have been included:

AEECA Environment Council of Alberta Library
8th floor Weber Centre
5555 Calgary Trail Southbound NW
Edmonton Alberta
T6H 5P9
phone (403) 427-5792

AEEN Alberta Environment Library
14th floor Oxbridge Place
9820 – 106 Street
Edmonton Alberta
T5D 2J6
phone (403) 427-5870

AER Alberta Research Council Library
5th floor Terrace Plaza Office Tower
4445 Calgary Trail Southbound NW
Edmonton Alberta
T6H 5R7
phone (403) 438-1666

UofA University of Alberta Library
89th Avenue and 114 Street
Edmonton Alberta
phone (403) 432-4174

Many of these reference materials, including those in scientific journals, may be available at local college, university, and public libraries. Some of the draft documents and other materials not assigned a library location code are available from the Research Division of the Environment Council.
